

Sharrcem, with the proposal of the Children’s Board of the Municipality of Hani i Elezit, in the course of joint activities aimed at contributing to the welfare of the citizens of the Municipality, where we list two of them:

1. A Walk in Nature, with the children of all kindergartens of Hani I Elezit. Part of this walk were over 100 children of preschool grades, where under the guidance of educators, representatives of Sharrcem, and municipal doctor, visited the verdant nature of Nika’s Wells in Hani i Elezit. The representative from Sharrcem, Halil Berisha, Environmental Manager, during the walk along the nature, held an informative lecture for the children, informing them about the environment in general, thus helping in their awareness of the role and importance of environmental protection. Children excited for the walk did not hesitate to answer questions that the lecturer made in regards to the environment, the importance of nature, trees, and flowers.

The student who answered the questions best was a 5 years old boy, Florian Kuka who was happy that he won a school book and an umbrella. „I am very happy that I have visited the nature and through my knowledge, won these gifts. Now I know that I should care about the environment, and I will always help my mother water the flowers together“, said Florian Kuka.

2. Traffic Safety - ZEBRA Crossing, the other children’s board project proposals implemented/financed by Sharrcem. Sharrcem decided to help on financing this project “Traffic Safety – Zebra Crossing” (painting the road crossings - ZEBRA and placing traffic safety signs all around in the Municipality and mainly focused near the elementary school “Ilaz Thaçi”. Participants who assisted in this project, initiated by the children members of the board, were representatives of the municipality of Hani i Elezit, several police officers of Kosovo, and Sharrcem representatives. The Managing Director of Sharrcem, Mr. Emmanuel Mitsou expressed his pleasure for being able to commit Sharrcem’s work for the community of Hani i Elezit and stated that the safety is a top business priority aiming to achieve an accident and incident free environment. Further, Mr. Mitsou considered this project one of high importance for the community, which helps to secure pupils the safe crossing of streets, especially around the area that surrounds the elementary school.
